

PROGRAM

Friday, 11 February 2022

CHANNEL 1

10.00-11.30 LIVE TRANSMISSION SESSION 1

Moderators: Marin Postu (Romania), Stanislaw Bartus (Poland)

Panelists: Ilie Barb (USA), Martin Hudec (Slovakia), Volodymyr Kolesnyk (Ukraine), Ştefan Moţ (Romania), Mihai Ursu (Romania)

Live case transmission from IUBCV "C.C.Ilieşcu", Bucharest, Romania

Operators: Dan Deleanu, Zoltan Ruzsa

Live case transmission from Kantonsspital Basel, Switzerland

Operators: Gregor Leibungut, Alex Achim

Conference: Why complex PCI? Dan Ioaneş (Sweden)

11.30-12.00 – BREAK

12.00-13.30 CHIP SESSION

Moderators: Joao Silveira (Portugal), Lucian Zarma (Romania)

Presenters:

1. *Challenges in Left Main PCI – Ştefan Moţ (Romania)*
2. *Radial approach challenges in CHIP cases – Igor Spiroski (Macedonia)*
3. *Hemodynamic support in CHIP cases – Ivo Petrov (Bulgaria)*
4. *Breaking the calcium – Stanislaw Bartus (Poland)*
5. *Imaging in CHIP cases – Theodora Benedek (Romania)*

13.30-14.00 – BREAK

14.00-15.30 LIVE TRANSMISSION SESSION 2

Moderators: Khalid Tammam (Saudi Arabia), Lucian Calmac (Romania)

Panelists: Risto Jussila (Finland), Lucian Predescu (Romania), Claudiu Ungureanu (Belgium), Ion Popovici (Republic of Moldova), Cristian Mornoş (Romania)

Live case transmission 1 from IUBCV "C.C.Ilieşcu", Bucharest, Romania

Operators: Adrian Bucsa, Peep Laanmets

Live case transmission 2 from IUBCV "C.C.Ilieşcu", Bucharest, Romania

Operators: Marin Postu, Dan Ioaneş

Conference: Why to do CTO? Imre Ungi (Hungary)

15.30-16.00 – BREAK

Friday, 11 February 2022

16.00-17.30 CTO SESSION

Moderators: Imre Ungi (Hungary), Lucian Predescu (Romania)

Presenters:

1. *Starting a CTO program – Mihnea Nechita (Romania)*
2. *Guidewires and microcatheters – Joao Silveira (Portugal)*
3. *Antegrade approach – Gregor Leibungut (Switzerland)*
4. *Retrograde approach – Khalid Tammam (Saudi Arabia)*
5. *Complication management – Zoltan Ruzsa (Hungary)*

CHANNEL 2

10.00-11.30 CHIP CASES SESSION 1

Moderators: Pavel Platon (Romania), Răzvan Șerban (Romania)

1. **Nicolae Cârstea** – *Severely calcified ostial LAD stenosis*
2. **Vlad Bătăiță** – *Complex PCI of a calcified LAD lesion*
3. **Mihai Melnic** – *A simple case of Rota in the Left Main!*
4. **Cătălin Ușurelu** – *Management of a NSTEMI patient with an uncrossable lesion*
5. **Nicușor Lovin** – *ACS hiding a heavily calcified Left Main disease in a geriatric patient*
6. **Cristian Militaru** – *Salvage procedure in surgical turnaround patient*

11.30-12.00 – BREAK

12.00-13.30 CHIP CASES SESSION 2

Moderators: Cristian Udroi (Romania), Ayman Elkahlout (Romania)

1. **Alexandru Basarab** – *One artery feeds them all*
2. **Alexandru Cotoban** – *The challenges of multivessel disease and acute myocardial infarction in a high-risk patient*
3. **Emanuel Radu** – *Interventionally approached complex coronary and carotid case*
4. **Ruxandra Constantinescu** – *Reasonable incomplete anatomical revascularization*
5. **Dragoș Lupu** – *Coronary stenting after rotational atherectomy in a patient with previous TAVR*
6. **Bogdan Drăgoescu** – *Complete revascularization in severe trivessel disease and LV systolic dysfunction*

13.30-14.00 – BREAK

Friday, 11 February 2022

14.00-15.30 CHIP CASES SESSION 3

Moderators: **Igor Nedelciuc** (Romania), **Nicolae Florescu** (Romania)

1. **Costică Baba** – Complex patient, complex PCI
2. **Paul Simion** – Left main PCI for spontaneous coronary dissection. What can go wrong?
3. **Marcel Abraş** – Complex treatment of the patients with ischemic coronary heart disease and severe aortic stenosis
4. **Bogdan Sabiescu** – Case
5. **Dan Tătaru** – Two complex lesions (calcified and CTO) in a patient with unstable angina
6. **Eugen Tieranu** – Complete revascularization in an old patient with STEMI and severe LV dysfunction

15.30-16.00 – BREAK

16.00-17.30 CHIP CASES SESSION 4

Moderators: **Rodica Niculescu** (Romania), **Florin Orţan** (Romania)

1. **Dumitru Tăriţă** – CTO PCI - the Hybrid Approach
2. **Constantin Erimescu** – A STEMI Case Report
3. **Lazlo Hadadi** – Acute myocardial infarction after surgical revascularization – to intervene or not on an old, occluded saphenous vein graft
4. **Alex Achim** – Biatrial Regional Tamponade and the Empty Heart
5. **Dan Filip** – Unprotected left main PCI in ACS with cardiogenic shock
6. **Radu Brezeanu** – TAP technique stenting in a diabetic patient with high risk NSTEMI

Saturday, 12 February 2022

CHANNEL 1

10.30-12.00 SESSION 1

Moderators: **Igor Spiroski** (Macedonia), **Elvin Kedhi** (Belgium)

“Live in a box” case 1 – **Claudiu Ungureanu** (Belgium)

- Case 1 – **Iulian Călin** – When the surgery is no longer a solution...
- Case 2 – **Lucian Predescu** – Left main CTO in STEMI with cardiogenic shock
- Case 3 – **Nicu Catană** – Left main tetrafurcation complicated with cardiogenic shock
- Case 4 – **Mihai Cocol** – Complicated left main stenting

12.00-12.15 – BREAK

12.15-12.45 Imaging and Physiology in modern Cathlab - *Vascular symposium organized with the support of Abbott company*

Full Physiology assessment – Future directions – **Dejan Milasinovic** (Serbia)

Why Physiology alone ? See beyond angiogram! – **Elvin Kedhi** (Belgium)

Saturday, 12 February 2022

12.45-13.00 – BREAK

13.00-14.30 SESSION 2

Moderators: Dan Deleanu (Romania), Dejan Milasinovic (Serbia)

“Live in a box” case 2 – Marin Postu (Romania), Lucian Predescu (Romania)

- Case 1 – **Adrian Bucșa** – *Left main PCI facilitated by rotablation*
- Case 2 – **Mihnea Nichita** – *Epicardial collaterals – The less traveled road*
- Case 3 – **Alexandru Cîrjan** – *Bifurcation CTO*
- Case 4 – **Răzvan Șerban** – *Left main PCI with circulatory support in a unstable patient*
